## VALUES

- Commitment
- Customer Value
- Teamwork
- Professionalism
- Flexibility / Adaptability
- Social Responsibility

## MISION

To work strategically to adapt to ever-changing international logistics

## VISION

To be a world class logistics company and link the world's oceans, continents and the sky.

# SERVICES

## *Air Cargo*

- We have a solid track record in areas requiring a high level of expertise, including auto parts, dangerous goods transported by air, aircraft parts/vessel parts, and semiconductor manufacturing equipment.
- Strategic and optimal logistics plans according to the special needs of the cargo, and appropriate responses to urgent air freight requests.
- High-quality transportation services optimizing the speed advantage of air cargo to support the needs of our customers' businesses.

## *Ocean Cargo*

- We are able to provide our own consolidated cargo services to major cities in the world.
- Able to handle a wide range of cargo such as food, chemicals and heavy goods using special containers (reefer, open top, flat rack).
- Customize logistics, which is becoming more complex as a result of international multi-mode transportation and buyer's consolidation.

# SERVICES

## *Logistics*

- Comprehensive logistics services utilizing our warehouses located in major regions around the world.
- Support a wide range of needs regarding import/export and product management to meet our customers' individual needs.
- Able to maximize efficiency in dealing with complex inventory management using the latest technology, while reducing our customers' time and costs related to international logistics.

## *Cross Border Truck*

- Offer the optimal distribution route
- Land transportation that is borderless and seamless by combining railways and trucks.
- Provide optimal logistics services according to delivery date, volume, the characteristics of the cargo and cost.

# SERVICES

## *Project Cargo*

- Provide safe transport of project cargo with detailed total logistics plans.
- Offer customized solutions for events that require attention to detail.
- We promise assured progress for large transport projects that require on-site responses.

# SERVICES

## *Fleet Management*

We offer tailored solutions to optimize vehicle operations for businesses of all sizes. Our comprehensive services encompass vehicle acquisition, maintenance, fuel management, route optimization, driver safety training, compliance, technology integration, environmental sustainability, cost management, and insurance risk mitigation.

By leveraging industry expertise and innovative technologies, we help businesses streamline operations, enhance efficiency, reduce costs, ensure compliance, and prioritize safety and sustainability. With a commitment to excellence and personalized support, we deliver tailored solutions to meet the unique needs and objectives of each client, driving success and maximizing fleet performance.

# SERVICES

## Cold Chain Logistics

- Capable of handling a variety of products, from perishable food to medicine and carbon fiber.
- Offer precision thermal management taking into consideration various specifications and the weather conditions of the transportation route for each product.
- Utilize special packing materials and thermal control facilities, high-quality, temperature-controlled transportation is attained.

### Temperature Controlled Logistics

This includes the distribution of biopharmaceuticals such as vaccines, proteins, peptides, hormones and antibodies and distribution of bio-samples and bio-products of human origin such as blood, tissues and cells.

### Pharma logistics

We handle the logistics of pharmaceuticals, medical and surgical supplies, medical devices and equipment, and other products needed to support doctors, nurses, and other health and dental care providers. We are unique in that we seek to optimize effectiveness rather than efficiency. There are several means in which cold chain products can be transported, including refrigerated trucks and railcars, refrigerated cargo ships as well as by air cargo.

### Temperature mapping for cold rooms, freezers and warehouses.

We handle Temperature mapping for cold rooms, freezers and warehouses. All new temperature-controlled storage areas must be temperature-mapped as part of a fully documented verification process. Until this has been done, it is not safe to store temperature labile products in such areas.

# SERVICES

## Cold Chain Logistics

Perishable Food

Pharma logistics

Temperature Mapping

Biopharmaceuticals

# SERVICES

## Customs Clearance

- As an expert in international logistics, we support smooth customs clearance.
- Provide support in accurate and prompt import and export procedures such as reviewing shipping documents.
- Assist in matters related to customs valuation, Generalized System of Preferences, EPA System of Preferences, and tax relief, etc.

## Warehousing

- Our global footprint and extensive network means we have facilities ready to handle your supply chain, whether at origin or destination. By combining shipping with warehousing and distribution, you benefit from a seamless end-to-end solution with fewer logistic service providers. Complexity is reduced, and you gain speed, control and visibility.

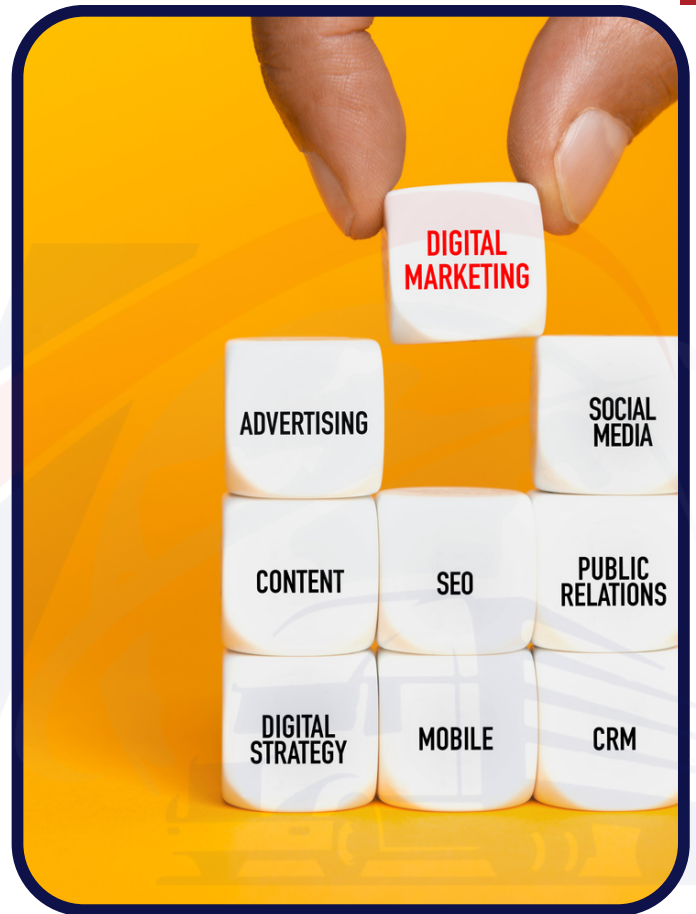

# SERVICES

## Marketing

- We get people interested in your company's product or service. This happens through market research, analysis, and understanding your ideal customer's interests. Marketing pertains to all aspects of a business, including product development, distribution methods, sales, and advertising.

## Distributorship

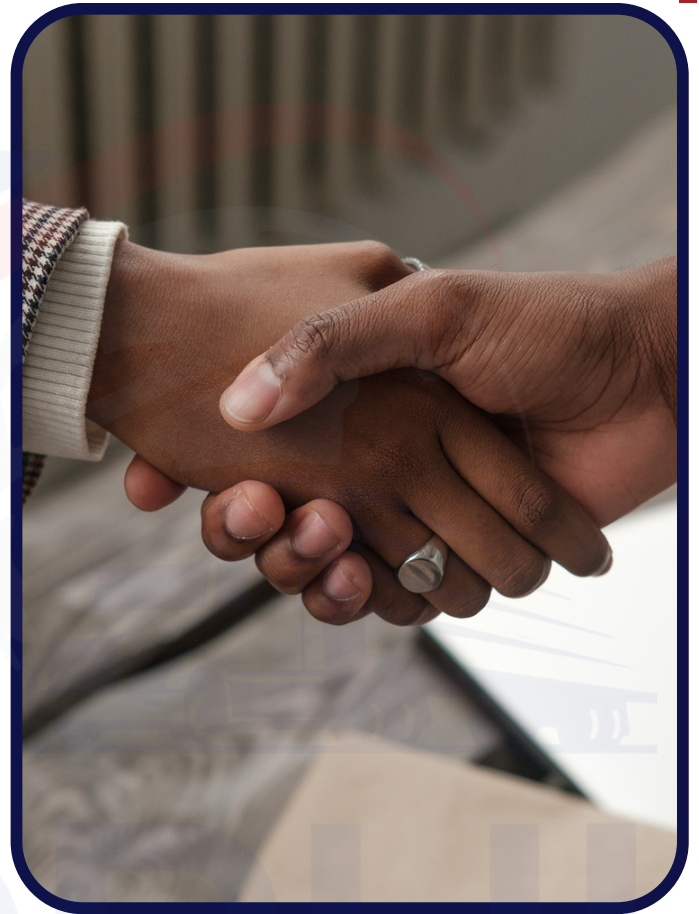

- We provide the necessary link between producers and consumers, within and across borders. The efficiency of the sector is crucial to ensuring that consumers have extensive access to a wide variety of goods at competitive prices.
- This include wholesale trade services, retailing services, franchising and commission agents' services.

# SERVICES

## *Dealership*

- We have established sales that maintains a relationship with the Manufacturer, and promoting, selling, installing, and maintaining products for the Manufacturer.
- We are trustworthy and take the time to build a relationship

## *Supply chain*

- We deal with a system of procurement (purchasing raw materials/components), operations management (ensuring the production of high-quality products at high speed with good flexibility and low production cost), logistics and marketing channels so that the raw materials can be converted into a finished product and delivered to the end customer
